Where do we go?

Our cycling tour has two options, the tour A and tour B. The both tours will take you through the most beautiful parts of the city and they only differ in the length of the trip (in time and distance). The cycling trip will allow you to see the most interesting places in Olomouc and the knowledgeable guide will provide you with the most interesting information at individual stops during the trip. Often you will learn about the life long time gone and the stories associated with it. There are about 20 stops during the trip that will include the most historical places, i.e., churches, fountains, columns, fortifications and others. The path will also lead you through the Olomouc beautiful parks. Stopping at a typical local restaurant and experience their specialties along with the famous Czech beer (both not included in price) will only enhance your biking experience. The tours are designed to follow the cycling paths and the less traveled local roads and streets.
